

endowed—an intellect of a high order—a heart the home of all noble and generous sentiments, beyond all comparison the noblest form and most striking person, we ever saw, and manners and address, of which no word but fascination will convey an adequate idea.

The immediate family of Colonel Butler, are a widow and six children—his venerable mother, two brothers, the present Senator Butler, and the Hon. Wm. Butler, and an only sister, the wife of General Waddy Thompson.

The Engineers engaged in surveying the route for a Railroad from Greenville to Columbia by this place, have arrived here, and report the route, thus far, an admirable one; and from our own knowledge of the country, we have no hesitancy in saying that from here to the line of Greenville is over as fine a country for making a Railroad as any in the world.—*Anderson Gazette, Oct. 28.*

NUMERICAL STATE OF WESLEYANISM.—From the returns just published of the number of members in the Wesleyan Society, it appears there are in Britain 339,379, being a decrease upon last year of 2098; in Ireland, 24,633, being a decrease upon last year of 2913; and in the foreign stations, 100,303, being an increase of 253; total number of members under the care of the British and Irish conferences, 464,315, being a decrease of 4749.

MR. WEBSTER.—We are sorry to learn that this distinguished gentleman is laid up at his farm in Franklin N. H. by a billious attack. The assertion of a correspondent of the Tribune that he had arrived in Boston last week was a mistake. Mrs Webster left Boston on Thursday evening to join him.—*N. Y. Tribune.*

SHOCKING MURDER IN KENTUCKY.—The Maysville (Ky.) Eagle gives the particulars of the horrid murder, at Sharpsburg, of J. C. Robinson, by two boys, named Ashby and Crouch, the former of whom he had expelled from his school, for misconduct. They assaulted Robinson with knives, who defending himself as well as he could, knocked Crouch down with a stone. Crouch regained his feet, and jointly with Ashby, closed on Robinson, when the latter received a horrible gash with the knife in the right part of the stomach, and staggered. Robinson exclaimed "I am a dead man," and instantly expired. The two youngsters escaped.

QUEEN VICTORIA'S "best go-to-meeting clothes cost half a million of dollars. Those that Bonaparte used to wear when emperor on state occasions, nearly an million.

The average age of the members of the Palmetto Regiment, S. C., is only twenty-three years.

GENEROSITY OF A RUSSIAN PRINCE.—Whilst the U. S. ship Princeton was at Gibraltar last month, Prince Demedoff, of Russia, visited her; on which occasion a salute was fired. One of the guns was prematurely discharged, and deprived Thomas Dennis, a seaman of both arms. Col. Robt. Wilson, Governor of Gibraltar, as soon as he heard of the act, very generously proffered the hospital at that place for the reception of the injured seaman, which offer was promptly accepted Prince Demedoff also acted in a very honorable manner. After being informed that the unfortunate man would be taken care of by the United States Government, he announced his intention to settle on him the annuity of \$80.

COLOR OF THE SEA.—In general the color of the sea is a bluish green, lighter on the coasts. In the Mediterranean it has a purple tint. In the Gulf of Guinea it is white. Near the Maldaves it is black, and in other places has red and yellow tints. Its component parts, with very slight variations are water, muriatic acid, sulphuric acid, mineral alkali, sulphate of lime, and magnesia. The freezing point 28 1-2 degrees.

IRELAND.—After a period of unexampled tranquility the old system of agrarian crime is again spreading through the southern provinces. The Limerick, Clare, and Tipperary outrages on person and property are becoming events of daily occurrence, and as complaints are general of the cessation of all employments, by reason of the termination of harvest labor it is apprehended that this, in conjunction with many other circumstances, will lead to a season of more than average disquiet.

SPECIE MOVING.—The agent of the Canal Bank, New York, is sending down to New Orleans to-day \$500,000—being the proceeds of sterling sold here. About \$300,000 in silver will go to Europe by the French steamer—and the Ohio Life and Trust Company send 10,000 sovereigns to England by the Hibernia, in part to cover their bills on Gower's failed house. If this sort of thing goes on, money will soon be valuable.

THE SLAIN OF THE MEXICAN CAMPAIGN.—The Richmond Republican sums up as follows the losses of our troops in the various battles in Mexico, Palo Alto and Resaca, 400 killed, Monterey, 500 do., Buena Vista, 800 do., Sierra Gordo, 500 do., Churubusco, 1,000 do., Mexico, and neighborhood, 1,600 do., Total, 4,800. The losses in skirmishes and from sickness, will probably number as many as those in the field.

FRANCE.—The remains of Louis Bonaparte, Count de Saint Lue, ex-King of Holland, who died a few months ago at Florence and those of his son, who also died in Italy, have arrived at Marseilles, and will, it is said, be brought to Reuil, and deposited near the tomb of the Empress Josephine and Queen Hortense.—*Gaz. nani.*

Poor House Election.

A STEWARD of the Abbeville Poor House will be elected by the Commissioners of the Poor, on Saturday the 27th instant, to serve for one year from the first of January, whose duty it will be, subject to their direction, to act as Superintendent of the Poor House and Overseer of the farm. As Superintendent, he will have the care and management of the paupers; and as Overseer, he will be required to perform all the duties of such an agent, which are so well known as to render mention of them here unnecessary. Applicants will address by letter directed to the commissioners of the Poor, and leave with any member of the Board. The applicant must state the number of his family, give some idea of the services they can perform, as to plowing, spinning, weaving, sewing, &c. &c., and the amount per annum for which he offers his services.

Applicants are requested to hand in their proposals as early as possible, and on the day of election their personal attendance on the board may be necessary. For further particulars enquire of

Extract from the New York Express.

It is seldom that we step out of our way to notice, either for praise or censure, the various advertised specifics of the day; and could we believe in the truth of all the certificates which are published in favor of some of them, there would be no call for our praise certainly. But from a personal knowledge of their virtue, we are willing to record our unsolicited testimony in favor of Dr. Hull's Worm Lozenges: they being in our opinion an infallible remedy for that bane of childhood—worms. Safe in their operation, easily administered, and what to us is a great recommendation in a medicine for children, they are not nauseating, but actually pleasant to the taste. We have used them in a number of cases in our family, and in each and every case with complete success; and we take pleasure in recommending them to our patrons and friends, not only as a cure for worms, but as a thorough and easily administered cathartic or purgative medicine, where such is needed, or where worms are suspected.

The above medicine is for sale at the Drug Store and at the Post Office. [Nov 37 1m]

Male and Female High Schools,

Greenwood, Abbeville S. C.

In urging the claims of the above Institutions to public patronage, the Trustees present the following considerations: They are located in a Village well known for the purity of its water, the salubrity of its climate, and moral character of its inhabitants. They are designed to afford a thorough and extensive education, conducted upon religious principles. They are supplied with chemical and philosophical apparatus, a cabinet of minerals and curiosities, and other means for illustration, in the various departments of science. They will always be furnished with teachers, for whose competency in every respect, is pledged the character of the Greenwood Association and of the South Carolina Presbytery.

The Trustees will spare no pains to render these Institutions equal to any in the State; and while it is their aim to elevate the standard of education, ample provision will be made for the youngest pupil. A system of classification with regard to capacity and attainments will be rigidly observed, thereby rendering it important that pupils enter at the beginning of the session. The scholastic year will consist of ten months and be divided into two sessions: 1st commencing first Monday in February, 2nd commencing second Monday in July.
